

## **Itchin' Back**

### **One In The Chamber**

I've started itchin' back; I can't scratch  
But the ones on tap say I've got that  
You know you're trying too hard to fight back  
When the bobbies on top tell you step back, you gotta get that rollin', don't stop trollin'

Till you're on your way  
Walkin' on from yesterday  
Keep steppin' till you earn your pay  
Baby don't waste you gotta celebrate  
You know you want it all  
But how far are you prepared to fall  
You live or die you're up against the wall  
Get your head straight don't let your dreams wait for you

I got a ticket to the show so let's go  
Keep your dial on, set for ringtone  
You keep saying that you're meant for something  
But your ticket comes up with nothing,  
So why you rushin' tryin' to keep yourself from dyin'

Cuz you're on your way  
Walkin' on from yesterday  
Keep steppin' till you earn your pay

Baby don't waste you gotta celebrate  
You know you want it all  
But how far are you prepared to fall  
You live or die you're up against the wall  
Get your head straight don't let your dreams wait for you

Straighten up  
I know you know that you can talk the talk  
A pretty mouth but can you speak at all when your name is called  
Can you tease it out  
Oh baby baby can you please at all  
You think you're the one but it's better to lose it all, than to never fall  
You're breaking your back but its already too tall

Cuz you're on your way  
Walkin' on from yesterday  
Keep steppin' till you earn your pay  
Baby don't waste you gotta celebrate  
You know you want it all  
But how far are you prepared to fall  
You live or die you're up against the wall  
Get your head straight don't let your dreams wait for you
