

Gotta Leh Go

By Rosh Grove

[Intro]

Uh huh, uh huh

Yeah

[Chorus]

I said I gotta learn to let go, of it
Cuz I'm not tryna fall in love yet
Gotta learn to let go, of it
Cuz I'm not tryna fall in love
Gotta learn to, let go, let go, let go, let go,
Let go, let go, let go, ah yeah

[Verse One]

I've been ready for a long time
Got my life on track with a strong mind
Taking care of the both sides
But fucked up making moves in the wrong grind
I know we've got a good thing
But it's hard cuz I've played so many games
And I ain't tryna throw any shade
But you'd know if you've been through pain

[Pre-chorus]

You want someone really nice, one who'll treat you right
Making love all through the night
All through the night, all through the night
And I know I can be your type, be just what you like, yeah
But right now, I ain't living right
Ain't living right, ain't living right

[Chorus]

I said I gotta learn to let go, of it
Cuz I'm not tryna fall in love yet
Gotta learn to let go, of it
Cuz I'm not tryna fall in love
Gotta learn to, let go, let go, let go, let go,
Let go, let go, let go, ah yeah

[Verse Two]

I'ma keep it real with you
I know I'm the only one who can deal with you
Cop bands and build with you
And in time level up, finally heal with you
And I've been so lost, in despair
Chasing the hearts of the ones who don't care
I don't want you all caught up, no I swear no
Cuz that shit ain't never fair

[Pre-chorus]

You want someone really nice, one who'll treat you right
Making love all through the night
All thru the night, all thru the night
And I know I can be your type, be just what you like, yeah
But right now, I ain't living right
Ain't living right, ain't living right

[Chorus]

I said I gotta learn to let go, of it
Cuz I'm not tryna fall in love yet
Gotta learn to let go, of it
Cuz I'm not tryna fall in love
Gotta learn to, let go, let go, let go, let go,

Let go, let go, let go, ah yeah

[Outro]

Let go, let go, let go, let go,
Let go, let go, let go, ah yeah
Let go, let go, let go, let go,
Let go, let go, let go, ah yeah
