How to say Hello
Without a telephone
Without a way to reach you anymore.
To go back in time
Would be along the lines
Of a dream I've had
With picture perfect score.

**You are still around
Forget the years that passed
They're never coming back
But you're still around.**

Like hands around the clock
Time it will not stop
We're spinning in and out of our control.
Yet, with you in my mind
And all our hearts combined
We said goodbye but never rest your soul.

**You are still around
Forget the years that passed
They're never coming back
But you're still around.**

**You are still around
Forget the years that passed
They're never coming back
But you're still around.**

**Forget the years that passed
They're never coming back.
You're still around.**
