VERSE 1

Little one, you see no harm
Your pretty pictures, your trusting
smile
Familiar face, a warning sign
One step too many, you're gone for
good

PRE-CHORUS 1

Hold on, and don't give up
Hold on

CHORUS 1

You've seen the other side
And lived beyond your years
Please tell us what you know
Even though we cannot hear

VERSE 2

Memories that cut like glass
Bottles crashing in waves
A single light to show us the way
One flicker to say you're here

PRE-CHORUS 2

Let go; you must let go
Let go

CHORUS 2

You've seen the other side
And lived beyond your years
Please tell us what you know
Even though we cannot hear

BRIDGE

When the people know, then you'll
be free
A falling icicle will break the wheel of
pain

CODA

Little one, confront your fears
Find solace in your dark place
