

# “Helluva Habit”

Artist: Lockwood Barr

They say twenty one days is all it takes  
To form a pattern you can't break  
Don't matter if it's cigarettes or wine

So what's a girl supposed to do  
After giving in to loving you  
You're in my blood and now you're in my mind

Helluva habit  
Helluva choice that I keep making  
Helluva weakness  
Helluva drug I can't stop taking  
O-o-oooh there's venom in your kiss  
O-o-oooh there's poison on your lips  
O-o-oooh A helluva habit

Ain't a twelve step program ever made  
To teach a heart to walk away  
The music stops, we keep dancing with regret

You're a helluva habit  
A helluva choice that I keep making  
A helluva weakness  
A helluva drug I can't stop taking  
O-o-oooh there's venom in your kiss  
O-o-oooh there's poison on your lips  
You're a helluva habit o-o-oooh  
A helluva habit
