

Still Driven

Cause we still winnin

Stayin on our hustle, working overtime

Defyin the odds, stayin on this grind

I used to come home and watch Much, it was all a dream

These were the days of xxl and oversize jeans

Back then there was so few that had success

I looked up to Fresh Prince and Maestro Fresh Wes

Now I been in it twenty years, don't make a mistake

Since Octobers 78, I was drake before drake

Pave the way, somedays felt like full time job

Kept money on my mind like I'm Snoop Doggy Dogg

Course I came across critics, all they sellin is wolf tickets

I rolled and pivot, flipped it can you dig it?

Now we Goin up we live it up like its new years...

On my Macho Man randy savage oooh yeah

HOOK

Throw up the W like Wu Tang Clan

Ain't nobody rock a party like Duane can

Put me at the function and watch me network...

I be at it it's a habit, we been putting in work

It was never easy, I had to deal with greezy

Now you see D.O.geezee, smiling up on ya teevee

Believe me when I say we didn't do it for clout

Took two L's came back, mama said knock you out

Stick and move, hit with that old one two

Northern Hospitality whenever we come thru

Can't nobody tell me no... where I dream is where I go...

Stay afloat... probably find me somewhere on boat
