

Attention

By Maddy Little

Verse 1

I'm running towards a light that I can't follow
With all these shadows staring back at me
My biggest fear in life is that I'll never find that missing piece

I'm holding onto hope that one day you might catch me when I'm falling
I know I'm coming off a dreamer, but I hope one day it happens

Chorus

I'm waiting on a love I know won't happen.
I'm all in, you're not even looking in the same direction
How do I get your attention?
I'm trying

Verse 2

I see the way that you were looking at me
What made you scared to let me in?
I know there's somethings eating away at you getting underneath your skin

But the more that you push, and the more that you pull oh
The ropes getting tighter around my throat
I'm trying not to let it slip now, but it's slipping and I can't get out

Chorus

I'm waiting on a love I know won't happen.
I'm all in, you're not even looking in the same direction
How do I get your attention?

Bridge

I'm waiting on a love
Looking in the same direction

Outro

How do
I get your attention
I'm trying
