

JUST MAKE IT HAPPEN

written by: Dave Rodgers, Nelson Little

(vs 1)

Sometimes there are things in life that need
changing
Sometimes there are things that stay the same
You can't just sit back here without tryin
Or, you'll be cryin

I've got a dream that's burnin deep inside
Out of control, like a fire, I cant hide
I'm flyin high on passion, and desire
Its taking me higher

(CHORUS)

Never say never ever ever
Just make it happen
Or, everything will take forever
And, never happen
Just make it happen
Yea, make it happen
Just make it happen

(vs 2)

Have you been lookin for love and a little
romance
Whatever you do, find the courage, and take a
chance
Just crank up the music loud, and you'll be
dancin'
You're the main attraction

(CHORUS x1)

Never say never ever ever
Just make it happen
Or, everything will take forever
And, never happen
Just make it happen
Yea, make it happen
Just make it happen

"Come On"

(INSTRUMENTAL)

(BRIDGE)

You have to risk and dream and never fear of
anything
Imagine life with everything, like superstars and
limousines
And, private planes and diamond rings
You can have the finer things
Like champaign, and caviar
Cruise ships, and classic cars
It doesn't matter who you are

(CHORUS)

Never say never ever ever
Just make it happen
Or, everything will take forever
And, never happen
Just make it happen
Yea, make it happen
Just make it happen

Never say never ever ever
Just make it happen
Anytime anywhere anyone
Just make it happen
Yea, make it happen
Just make it happen

(END)
