

## **Constellation - Sherry Jacoby**

Verses: C F G G / Am Em F F

Chorus and Bridge: C F G G

BPM 68

### **Verse 1:**

In shadows, I was waiting for a glimmer  
To pour into the window of my house of longing  
You found me, and we floated up the staircase  
Lifting up higher to the clouds, up we go

### **Chorus:**

'Cause I got you  
And for the first time in my life  
My hope is true  
Our love's a dive into the stars  
I fell into  
A constellation of your name  
And I'm with you  
Till only our light remains

### **Verse 2:**

Souls entwined, the seeker found her meaning  
The haven I've been dreaming of and more, and more  
When night falls, it is known even in darkness  
There will be a glimmer of the everlasting glow

### **Chorus:**

'Cause I got you  
And for the first time in my life  
My hope is true  
Our love's a dive into the stars  
I fell into  
A constellation of your name  
And I'm with you  
Till only our light remains

### **[Instrumental Break]**

### **Chorus:**

'Cause I got you  
And for the first time in my life  
My hope is true  
Our love's a dive into the stars  
I fell into  
A constellation of your name  
And I'm with you  
Till only our light remains
