

## Let You Down - Lyrics

Countdown, you're coming home  
Let's find a place of our own  
You're tired of taking it slow  
Two years, a few months shy  
So far, we're doing alright  
I follow wherever you go

I've been telling myself the hard part's over now  
Then I talk myself out, now the whole ship's going down

What if I let you down?  
What if our love burns out?  
What if I get in my head and I mess this up somehow?

Mismatched picture frame  
Love that look on your face  
Each detail of your particular taste  
This bed might be small  
It's three steps down the hall  
That's okay, cause it's our place

That's alright if it don't quite feel like home tonight  
Don't you know everybody feels unsure sometimes

What if I let you down?  
What if our love burns out?  
What if I get in my head and I mess this up somehow?  
And what if we can't get by?  
What if I don't know why?  
What if it all goes wrong and it makes us change our minds?

Lights fading, I'm shaking  
Sometimes I just can't take it  
Heart broken, not knowing  
If I'm dumb enough to break it

But I know it, I know it  
We're strong enough to make it  
We'll hold on, be patient  
Stop saying

What if I let you down?  
What if our love burns out?  
What if I get in my head and I mess this up somehow?

What if we get this right?

What if it's you and I?

What if we realize that we had it all this time?

All this time

All this time

What if we realize that we had it all this time?
