

I see the way you're watching me  
The moves I make  
And boy it's something more than I  
Than I can take  
So step a little closer now  
Let me show you the way  
I think there's something on your mind  
What do you say?

I wanna take you to the sky  
I wanna feel your body, oh  
You've got the rhythm that I like  
I wanna take your body higher

Make me feel the love you have tonight  
Take me on a little ride  
Feel it in your body and your mind  
You might be my special guy

The more I see the more I like  
Don't be so shy  
You'll be the one I have tonight  
No need to try

I wanna take you to the sky  
I wanna feel your body, oh  
You've got the rhythm that I like  
I wanna take your body higher

Make me feel the love you have tonight

Take me on a little ride  
Feel it in your body and your mind  
You might be my special guy  
I wanna take you up so high  
Make me the one tonight  
Give me that rhythm feels so right  
You've got me feeling high

I wanna take you to the sky  
I wanna feel your body, oh  
You've got the rhythm that I like  
I wanna take your body higher

I wanna take you to the sky  
I wanna feel your body, oh  
You've got the rhythm that I like  
I wanna take your body higher
