

Window Shopping by Garrett Lajoie

Verse:

We were going through the motions
I was walking trepidatiously
I was swimming in your ocean
I invited you privately

Not every day I get my heart out
I try to keep it all locked away
You were some kind of a knock out
So I gave you my time and space

Refrain:

You were window shopping
I thought we had it locked in

Verse:

Told me baby keep it right here
Gotta focus on the good times
If you're looking at five years
We can always get a good vibe

Every day we get a new chance
To figure out what we wanna do
So you shared our little plans
And you gave it to someone new

Refrain:

You were window shopping
I thought we had it locked in

Verse:

I was in it for the long run
I was hoping for a diamond ring
But you were showing off your big guns
To just any old pretty little thing

Refrain

You were window shopping
I thought we had it locked in
