

# **CODE BLUE**

Written by: Olivia Penalva & Tavish Crowe

## **VERSE**

I've been looking backwards chasing my own  
tail  
Making mountains out of every small detail  
Feel like I'm wasting time on anyone but me  
I'm so caught up in storms that I can't feel the  
breeze

## **PRE**

Underneath, all the leaves, by the trees, bury me  
Cause the past, it's a trap, so detach don't look  
back

## **CHORUS**

I've been thinking about loving you  
There was nothing I wouldn't do  
I would have died doing it its true  
Emotional Code Blue

I'm alive but I'm different now  
Cause it's you I will live without  
Who am I what am I to do  
Emotional Code Blue

## **VERSE 2**

I'm not a storm chaser but living in the clouds  
Means rain and thunders gonna follow me  
around  
I hold my breath until the sky opens the door  
Like I can't breathe unless it finally starts to  
pour

## **PRE**

Underneath, all the leaves, by the trees, bury me  
Cause the past, it's a trap, so detach don't look  
back

## **CHORUS**

I've been thinking about loving you  
There was nothing I wouldn't do  
I would have died doing it its true  
Emotional Code Blue

I'm alive but I'm different now  
Cause it's you I will live without  
Who am I what am I to do  
Emotional Code Blue

## **BRIDGE**

Wheel me in, fluorescent lights, doctor please  
don't let me die  
I've done things, I told lies, different me,  
different time  
Who I've been, who I might, one more chance to  
get it right  
Cross my heart, cross my mind, I'll see you but  
not tonight

## **CHORUS**

I've been thinking about loving you  
There was nothing I wouldn't do  
I would have died doing it it's true  
Emotional Code Blue

I'm alive but I'm different now  
Cause it's you I will live without  
Who am I what am I to do  
Emotional Code Blue
