

# See It On Her

Brettyn Rose, Chris Yurchuk

You bring her flowers just because you're  
wantin' to

That's something I never once saw him do

She's makin' plans she never made before I  
guess it never made sense to

The way it does with you

Those smiles when she walks in a room

Those kisses from out of the blue

All the love she gets from you

I can see it on her

She wears it like a brand new dress

Can't get enough of how it fits

Like you're kind of forever will last longer

I can see it on her

You turn her a brighter shade of beautiful

When she dances in your eyes, it's some  
kinda wonderful

She don't even remember that last  
heartbroken record

Cause she's a different song now when you  
sing her

Those smiles when she walks in a room

Those kisses from out of the blue

All the love she gets from you

I can see it on her

She wears it like a brand new dress

Can't get enough of how it fits

Like your kind of forever will last longer

I can see it on her

She don't have to wonder

She knows you love her

I can see it on her

Those smiles when she walks in a room

Those kisses from out of the blue

All the love she gets from you

I can see it on her

She wears it like a brand new dress

Can't get enough of how it fits

Like your kind of forever will last longer

I can see it on her
