I have seen you happy
With another girl (harmonies)
And you hand around her
And is so funny (harmony)

That you trying to play games
With me honey (harmonies)
Telling me that you love me
And you love no body

Why you keep coming back to me
Showing affection
What the plan
Why you calling me
Just think about it (harmony)
I already know that you are not being faithful
That the whole need of me
Comes with bad intentions

I have seen you staring
That poor and crazy girl
That besides loving you
Support you honey
And you traying to ply games with me darling

Tell me how you love me

And you love nobody

Why you keep coming back to me

Showing affection

What the plan

Why you calling me

Just think about it (harmony)

I already know that you are not being faithful

That the whole need of me

Comes with bad intentions

Now is time to cry for me

To beg me

Is time for you

To relieve the pain I did

You need to forgive me

But you are no good for me

Don't try to explain

Why you made a fool of me

But now you wanna try for me

Live her for me

Is time for you

Get a grip and let me be

You need to release me

Cause no good for me

And don't try to explain, Why you made a fool of me

and you trying to play games

With me honey (harmonies)

Telling me that you love me

And you love no body

Why you keep coming back to me

Showing affection

What the plan

Why you calling me

Just think about it (harmony)

I already know that you are not being faithful

That the whole need of me

Comes with bad intentions
