

Queens

(Eric Vosper, Carter Vosper, Riley Buchberger, Remi Berthelet)

Boys, stand in line
Sick as a dog and they'll wait out there all night
The girls, get in for free
"Showing up late makes no difference to me"
And I hear you say

"Go go go go
Make make make make
More more more more
Take take take take"

Gals, they get their way
Doesn't make a difference what you do or what you say
The gents, so easy to please
Gimme a beer and a bucket of KFC
And you'll hear me say

"Go go go go
Make make make make
More more more more
Take take take take"

Kings, they take no breaks
Working all day when they're not tied at the stake
Queens, you're all we see
Flip of your hair and you bring me to my knees
And I beg you don't go

"Go go go go
Make make make make
More more more more
Take take take take
(Don't Go)
Go go go go
Make make make make
More more more more
Take take take take"
