VRS 1
Locked me up in his world
He yelled at me
At the corner of the street
Frozen there in my tracks
What we're fighting for we can't get back
Shocking that it's fear now
Instead of him
How did comfort get so grim?
Cut me like a ghosted limb
How did I become a pseudonym?

CHO
I'm your Eddie Vedder
You're my heavy weather
In my heart you'll never know
Cause you wouldn't let me go
Maybe this is better
You're no Ryan Tedder
And my heart you'll never know
Cause you wouldn't let me go

VRS 2
Dancing in your darkness
You're blowing smoke
You broken choking joke
In your beaten up jalopy (yeah)
You're not a tribute or a Springsteen copy

CHO
I'm your Eddie Vedder
You’re my heavy weather
In my heart you’ll never know
Cause you wouldn’t let me go
Maybe this is better
You’re no Ryan Tedder
And my heart you’ll never know
Cause you wouldn’t let me go

BRDG
No fire, No spark
It was better when we were apart
No fire, No spark
It was better when we were apart
No fire, No spark
It was better when we were apart
